

## **TAKE DOWN MACHINE TRAINING CAMPS**

**"WHERE THE WEAK BECOME STRONG...and the STRONG BECOME CHAMPIONS"**

**50 Acre camp grounds! Small group format! A proven technical system of wrestling! Professional Coaching!**

Our summer drill camp focuses on 4 key areas:

- \*Primary Attacks – leg attacks (with core setups, finishes)
- \*Secondary Attacks – scoring techniques other than hi C, single, double
- \*Counter offense- Front headlock offense/blocking skills/defense
- \*Positioning - hand fighting/Trouble shooting bad positions

Est. in 1999, our Takedown Camp has turned into one of the premiere camps in the country. Our small group format (40 athletes per group), focused drill sessions, and proven technical system draw some of the best wrestlers in the country. Focused, driven parents realize that their son needs to be exposed to a proven format w/in a small group setting. This is why kids from all over the U.S. (AK, HI, NH, FL, CA, PA, OH, etc.) forego the monstrous University camps with 300 plus campers, and choose Nick and Tony's Takedown Camp. From novice athletes, to experienced athletes, to **entire teams**, many parents and coaches are trekking across the U.S. to attend. We believe wrestling is a POSITION BASED sport, not MOVE BASED. Being exposed to a ton of moves in one week (a typical camp format) does not guarantee success. But learning how to get from bad position to good position, then scoring with sound technique, does. Your son will be taught a SYSTEM, not a bunch of random moves. Your son will learn how to use his hands, and wrestle TO THE LEG! We believe that all the wrestling takes place before, and after, you get to the leg. Our system will get you scoring points and winning matches! **The last session of the camp is an intense drill session of virtually everything covered. During the session, (with parents watching) Nick and Tony are able to idly stand by, call out virtually every technique covered, and have even the most novice wrestler drill the technique properly for several minutes straight! We urge you to find a camp in the country that would have the confidence in their camp to do this!** The camp is limited to just **45 athletes per group**, guaranteeing that every single wrestler gets the undivided attention they deserve. With the last session being the tell all, we obviously work very hard with every athlete. \*The camp has booked up in each of the past 6 years it's been held and begins filling up a year in advance. **\*Each session is taught by Nick and Tony! Unlike other camps, the advertised clinicians will actually be there, and TEACH, EVERY SINGLE SESSION!!**

**Troy, MO (Cuivre River State Park)**

### **CAMP DATES**

wk 1: June 10-13; wk 2: June 14-17  
wk 3: June 19-22 wk 4: June 25-28  
wk 5: June 30-July 3; wk 6: July 5-8

## **Purler Wrestling Academy**

**2007 Tulsa National TEAM CHAMPIONS ♦ 4 National Team Titles in 7 Years '07  
PURLER BROTHERS TRAINING AMERICA'S YOUTH**

Established in 1999, Purler Wrestling, Inc has grown into a results-oriented program that offers a variety of wrestling opportunities to both athletes and coaches.

Currently, we offer 3 unique training environments for you to take advantage of and encourage you to browse our web sites and see just what we have to offer. ([www.tonypurler.com](http://www.tonypurler.com), [www.purlerwrestling.com](http://www.purlerwrestling.com))

PWA offers year-round training throughout the states of Missouri, Kansas, and Illinois. Over the past 8 years, PWA has grown into one of the most prestigious programs in the U.S. As those currently involved in PWA will attest, Nick and Tony are professional, and more importantly, very good at teaching the sport to young wrestlers. PWA athletes improve at an accelerated rate because Nick and Tony are able to approach this combat sport as a TECHNICAL SPORT, not a fight. Their wrestling/coaching backgrounds have given them an intimate understanding of the sport that few coaches have. Actually, few college coaches have an 'athletic resume' comparable to Tony's. (NCAA Champ, US Nat'l Champ, World Cup silver medalist, 2x US World Team member, World Place Winner.) With this resume', it's easy to see why most choose PWA over other academies. Though camps and clinics are important, they do not provide constant critique of an athlete's technical and mental progression like PWA does. In fact, a wrestler would have to attend **5 weeks worth of summer camp to get the total hours of technical instruction provided by PWA!** Through focused, intense drill sessions, PWA athletes quickly learn, understand, and RETAIN the technical aspects covered. **2007 State Results: 47% of State Qualifiers reached the FINALS!**

\*\*PWA urges anyone interested in the program to approach a parent of a PWA member for a testimonial.

Our motto is simple: **"Those who stay will be Champions"**

**To apply for the Takedown Machine Summer Camp apply online at [www.purlerwrestling.com](http://www.purlerwrestling.com). Or contact Nick at 314-229-3540, [nick@purlerwrestling.com](mailto:nick@purlerwrestling.com).**
